

PADI App

The PADI Dive Shop Locator
has **gone mobile**
with the
iPhone & Android App!

Take a tour of
how the PADI App works.

PADI App

Boot Screen

As the app loads, you will see this screen. Load time only takes about 2 or 3 seconds.

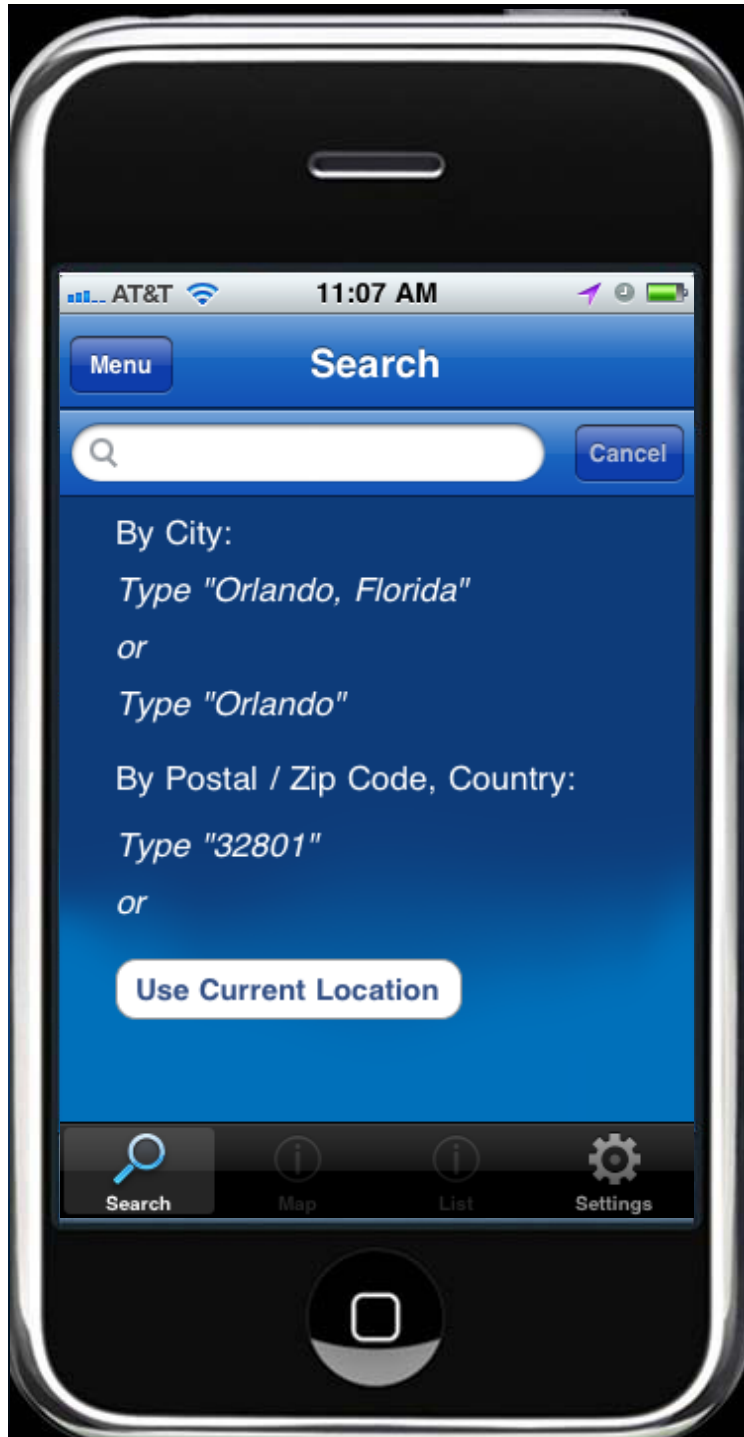

PADI App

Selection Screen

Once the app loads, tap the “PADI Dive Shop Locator” button to activate it. This is the one feature available at the moment. In the future, more features will become available on this screen.

PADI App

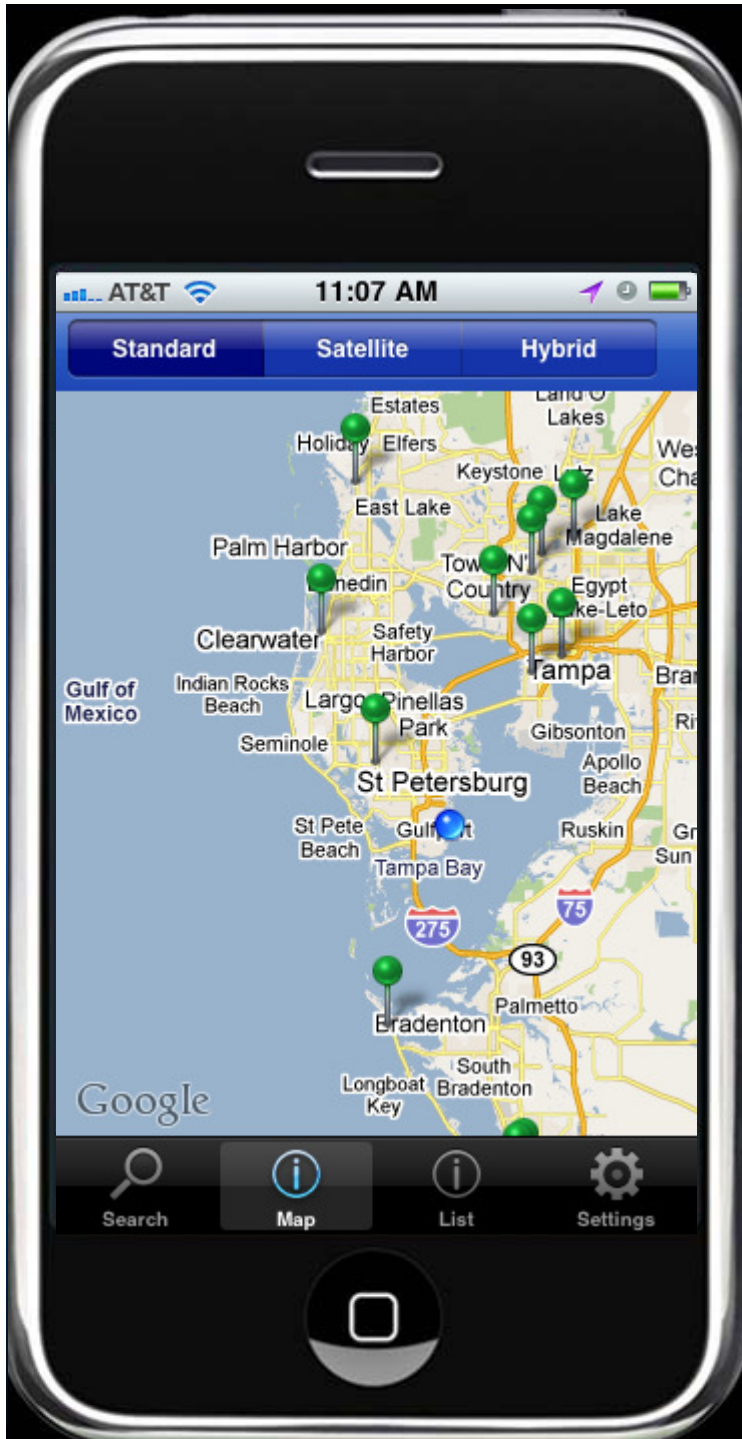

Search Screen

The search screen allows the user to search for a dive shop manually by typing in the desired City, State, Zip Code/Country; or by allowing it to detect your current location by GPS!

PADI App

Map Results Screen

Based on the search criteria on the previous screen, the search results will appear on this screen. Each pushpin represents a dive shop location.

PADI App

Map Results with Screen Balloon

When one of the pins is tapped, a balloon will appear. This balloon will provide the name and phone number of the dive shop. Tap the balloon for more details about the dive shop.

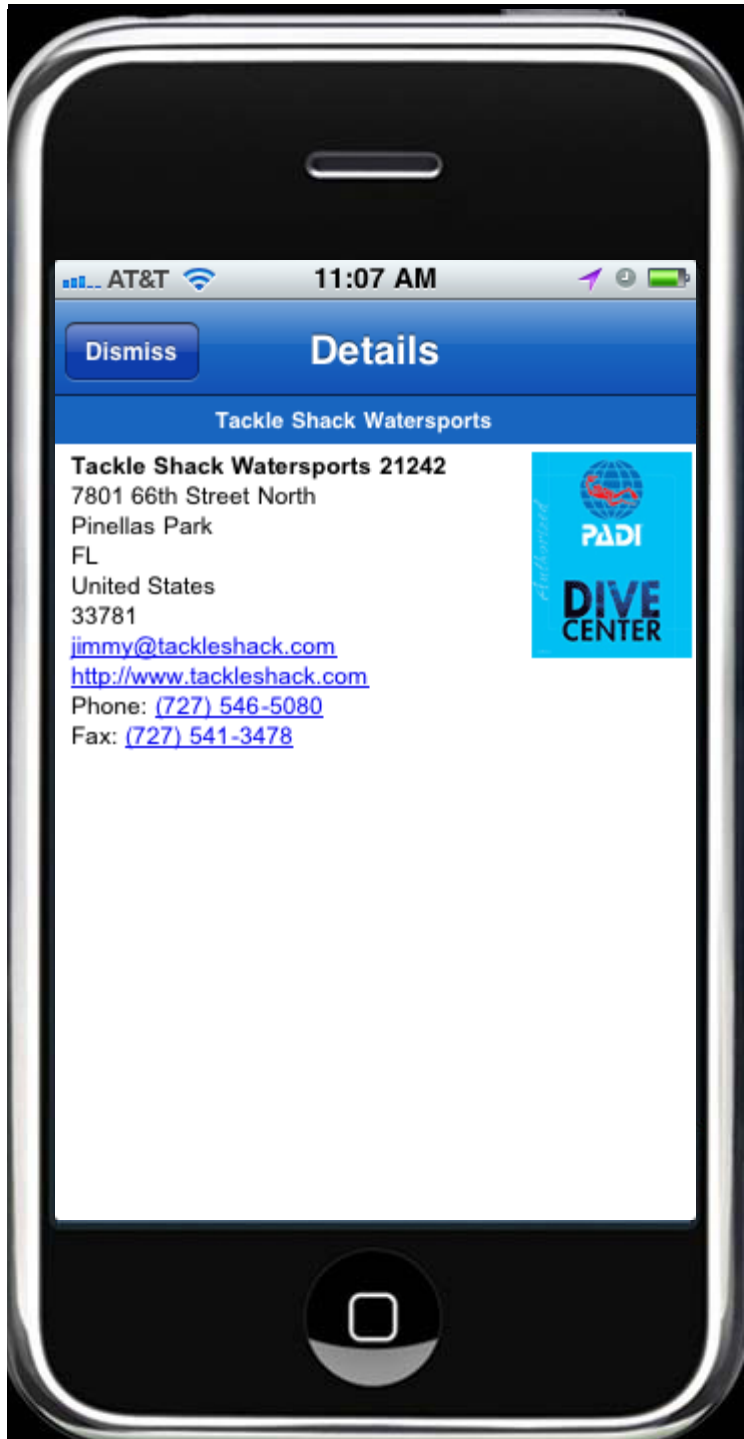

PADI App

Details Screen

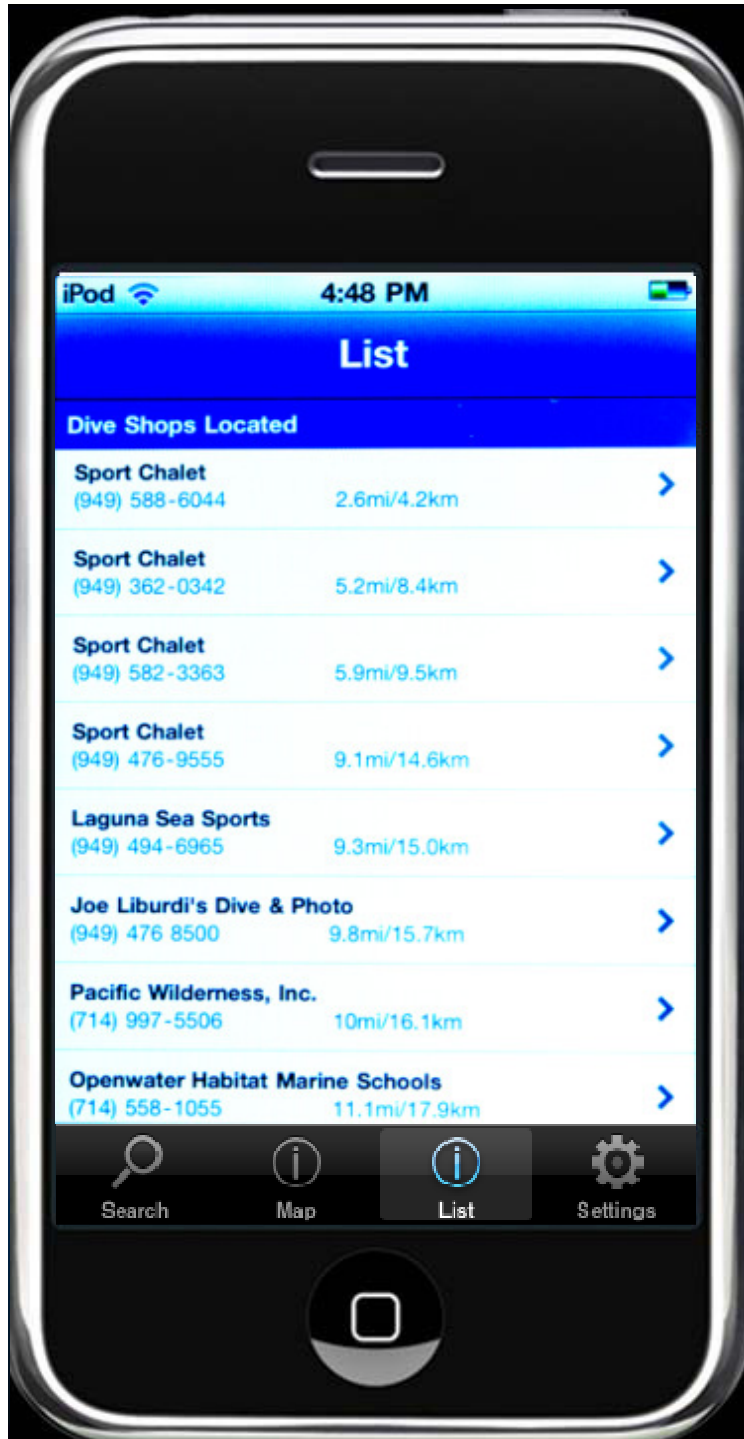

This screen gives more details about the contact information, along with the dive shop or resort rating (identifying it as a PADI 5 Star, etc).

Some enhanced listings will show more information such as business hours, courses offered, brands offered, etc.

Tap “Dismiss”, to go back to the map screen or list screen with the original search results.

PADI App

List Screen

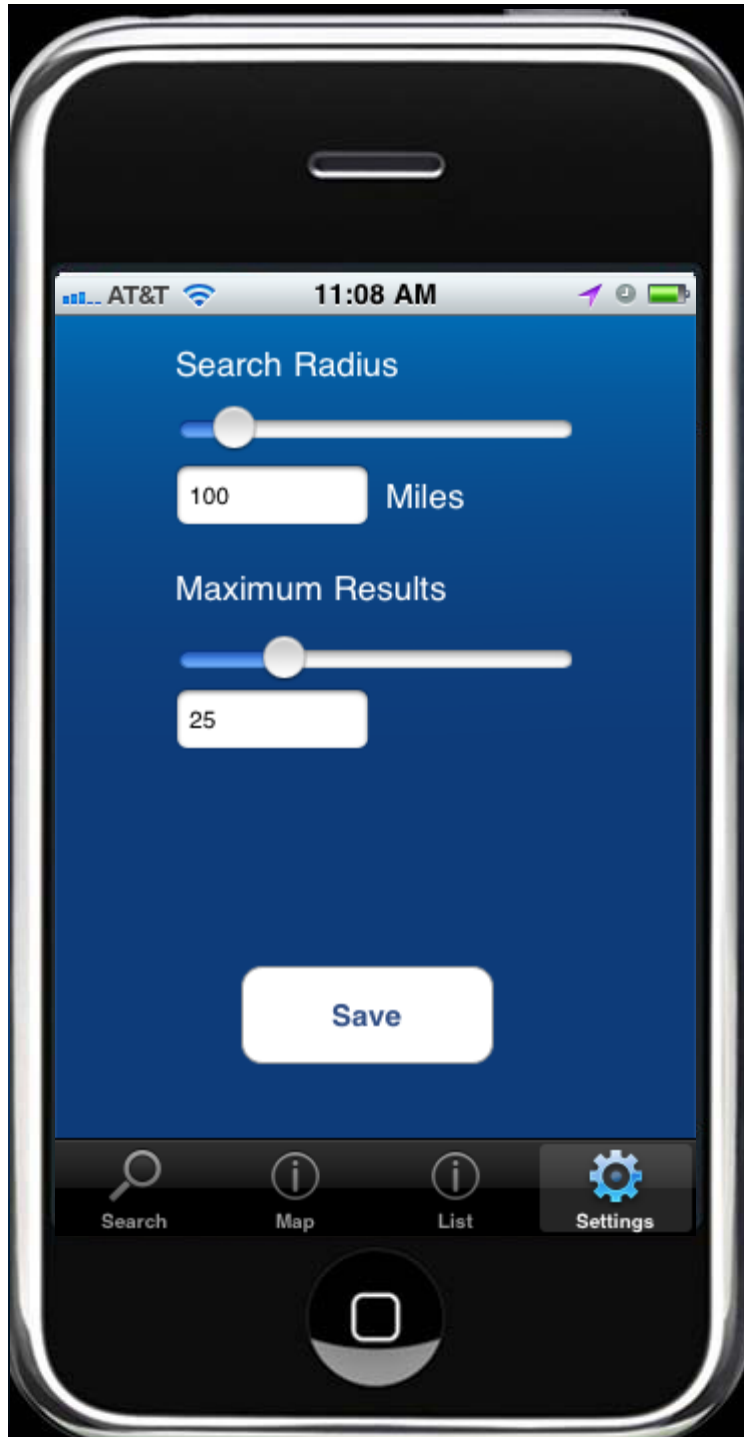

The search results can also be viewed in a list format by tapping the “list” icon on the black menu bar at the bottom to see results in order of closest to furthest from the search criteria.

Tap the arrow key to the far right to go to the details screen for that listing.

PADI App

Settings Screen

Tap the “Settings” icon on the menu at the bottom to customize the proximity for the search results.
