

PADI Freediver Medical History Form

Please read carefully before signing.

Participant's Name _____ Date _____ (Day/Month/Year)

Birth Date _____ (Day/Month/Year) Sex M F

Freediving is a demanding activity and can be strenuous and you need to be in good health to participate. If you have any questions as to whether or not you are fit to freedive, consult with your physician.

The purpose of the Medical Questionnaire is to find out if you should be examined by a physician before participating in freediving activities. A positive response to a question does not necessarily disqualify you from diving. A positive response means that there is a preexisting condition that may affect your safety while freediving and you must seek the advice of a physician.

Please answer the following questions on your past and present medical history with a **YES** or **NO**. If you are not sure, answer YES. If any of these items apply to you, you must consult with a physician prior to participating in freediving.
